
"It's definitely an asset to be able to understand the business side as well as the legal side when I'm working with a business to solve their legal issues."

Bessie Jackson
UBC JD/MBA 2011
In-house counsel at Aritzia

The practice of law meets the practical application of business.

The UBC JD/MBA will equip you with the tools to understand law from the perspective of a businessperson, and to understand business from the perspective of a lawyer. By gaining expertise in all angles of law, business and management, you will be ready to succeed in global economies where the ability to navigate the complexities of law and business is key.

The program offers countless opportunities for gaining practical experience. Through Allard's clinical programs you will work with members of the legal profession and real-world clients. Through UBC Sauder's Global Immersion experience, you will travel abroad to solve real business problems for international organizations.

On their own, each of these skill sets is sought-after. Combined, they are invaluable.

Professional growth. Accelerated.

UBC JD/MBA candidates benefit from the full support of the Career Services Office at the Allard School of Law, plus UBC Sauder's Hari B. Varshney Business Career Centre. Before and after graduation.

That means twice the professional development opportunities.

Our graduates pursue rewarding careers in fields such as corporate law, investment banking, consulting, venture capital and in-house counseling.

All four corners of the globe. In your corner.

When you pursue a UBC JD/MBA, your network expands globally.

By tapping into two networks of experienced professionals with diverse – and often international – backgrounds, the UBC JD/MBA opens up a world of opportunities.
